**American Society of Home Inspectors  
Receives Re-Accreditation of its ASHI Certified Inspector  
from the National Commission for Certifying Agencies (NCCA)**

WASHINGTON (6/12/24)—The NCCA re-accredited the American Society of Home Inspectors ASHI Certified Inspector for a five-year period, expiring 6/30/2029, during its recent meeting.

Founded in 1976, ASHI is a professional certification organization acting in the public interest by establishing and enforcing education, examination, experience, and ethics requirements for certification. Currently, 2479 home inspectors are certified to use the ACI designation. The ASHI and the ACI first received NCCA accreditation in 2009.

American Society of Home Inspectors received renewal of NCCA accreditation of its ASHI Certified Inspector by submitting an application demonstrating the program's compliance with the NCCA's *Standards for the Accreditation of Certification Programs*. NCCA is the accrediting body of the Institute for Credentialing Excellence (formerly the National Organization for Competency Assurance). Since 1977, the NCCA has been accrediting certifying programs based on the highest quality standards in professional certification to ensure the programs adhere to modern standards of practice in the certification industry. [Click here to view the NCCA Standards.](#)

There are more than 315 NCCA accredited programs that certify individuals in a wide range of professions and occupations including nurses, financial professionals, respiratory therapists, counselors, emergency technicians, crane operators and more. Of ICE's more than 370 organizational members, 130 of them have accredited programs.

ICE's mission is to advance credentialing through education, standards, research, and advocacy to ensure competence across professions and occupations. NCCA was founded as a commission whose mission is to help ensure the health, welfare, and safety of the public through the accreditation of a variety of certification programs that assess professional competence. NCCA uses a peer review process to: establish accreditation standards; evaluate compliance with these standards; recognize organizations/programs which demonstrate compliance; and serve as a resource on quality certification.

ICE and NCCA are located at 2025 M Street, N.W., Suite 800, Washington, DC 20036-3309; telephone 202/367-1165; fax 202/367-2165.
